

YULUNGA RESERVE MANAGEMENT COMMITTEE

REPORT TO THE RED HEAD VILLAGES' ASSOCIATION 22nd February 2025

Relocation of Hall Users during hall renovation works

The management committee is thankful that work has finally commenced on the hall renovations.

The Mobile Pre-school has commenced sessions at the Lake Conjola Community Hall.

The Combined Pensioners are very happy in their new meeting place in the soccer shed. The Table tennis group that meets on Monday afternoons is also using the soccer shed.

Saturday morning yoga has commenced in the recreation room at the Bendalong Tourist Park.

The surface condition of the two tennis courts

Our committee is quite concerned about the build up of mould on the tennis courts. This is a safety issue for players after wet weather. The tennis courts brought in good income during the past year so we have written a request to council requesting the courts be pressure cleaned .We are awaiting a response.

Availability of the Yulunga Community Hall for the forthcoming elections

We have not yet been contacted about the availability of the hall for the forthcoming Federal elections but there is the possibility that the hall may be available as a voting venue. Once we know more about completion dates for the hall, we may be able to advise the Electoral Commission as to its availability.

Native vegetation plantings adjacent to the Five Villages Community Garden

Work continues beautifying the area in front of the community garden and the plantings are growing well. New mulch has been laid recently so that area is looking more attractive. Careful consideration has been given to the species planted so that they are bird attracting.
