To whom it may concern
**Re: Deteriorated and unsafe road condition of the Companion Way Manyana**

The RHVA has become aware of the deteriorating condition of the western shoulder of the Companion Way in Manyana. Between house numbers 17 and 23 in this street the shoulder of the road has subsided and is continuing to worsen. The Companionway is a major thoroughfare through Manyana hence the worsening condition of the road is not only a safety concern to the street residents but also to many other locals and holiday makers travelling through the township.

We ask that Council urgently investigates the cause of this road's continuing deterioration and advises the RHVA of plans for its rectification. We are also aware that significant road repairs were conducted on the Companionway in recent years and thanks Council for its continuing attention to this matter.

Yours sincerely

Chris Hayes
President
